

ErgoFunction Specs

Product Number

EF-KT-27

The ErgoFunction™ is our most traditional keyboard platform. It allows for infinite placement possibilities for your keyboard and mouse. With three mounting options, the tray may be positioned in the center, to the left or to the right of the support arm.

It is 27" in width with a mouse placement area. It features a one piece 27" gel pad for ease of motion between keyboard and mouse.

The ErgoFunction™ will fit onto any ErgoFusion keyboard mechanism (arm).
